Diaz Declares His Revolt Is To Bring About Peace

Leader of New Revolution in Mexico Attacks Madero's Administration—Appeals to Army to Cooperate With Him.

FALLING upon his countrymen to cooperate with him, and urging his reasons for bringing about a revolution, Brig.-Gen. Felix Diaz, head of the new revolution in Mexico, has issued the following manifesto, which has been received in El Paso:

In moments of supreme crisis for the fatherland, I raise my voice to ask the assistance of all men of good will and of all men of good will, to bring back to us an era of peace.

It is not now possible to endure in silence so many evils as have been caused and are still being caused by the administration of Madero, which has resulted from the revolutionary movement of 1910.

The mark of democracy and altruism, which was utilized to deceive the people and drag them into an armed movement, once removed, the true face of the man is exposed, who, without any right because the true soul of the revolution was otherwise, proclaimed himself leader thereof, raised himself into power, favored by a moment of national obsession, and this true face is that of a being greedy for riches for himself and his very numerous family, without any of the qualifications of a man fit to govern; cruel and sanguinary like all who are weak, and who is raised above the state of his reason when the consequences with which he treats the responsibility of the high office he holds is seen.

Fire, pillage and murder are the weapons the present government utilizes, not to defend itself against aggression, but to silence the voices of its own patriots, who call out to it, "Carry out your promises."

Carry out your promises, and fire are the reprisals resorted to by those who have been tricked, who, at the height of their rage, in the impetuosity of the reason for their complaints, now that no other way is left than to die fighting with arms in their hands, order not to die hunted down like savage beasts on the ashes of their razed towns and the corpses of their sisters, daughters, wives and mothers, useless and ignominiously sacrificed.

Let everybody know, let there be no doubt. The present revolution is not a movement to change the government, provoked, forced by the most cruel abuse of authority, by one who attacks not only property but life, which even the terrible military laws respect.

Reason for Revolution. For so noble an end as this I am going to risk my life and the lives of the men who have come together around me. If we die, it will be with the satisfaction of having sought the welfare of the fatherland. If success favors us, the provisional government which we shall establish will be made up of persons of recognized probity, intelligence and prestige, without dissimulation.

Let us speak of this, which I place before my signature, PEACE AND JUSTICE.

MEXICAN FEDERALS MAY STOP WIRELESS

Reported Necessary Station May Have to Be Abandoned Because of Objection by Government.

Douglas, Ariz., Oct. 22.—It is reported here that the wireless station constructed by the Greene Cananea company at Cananea, and that of the Mochitoma Copper company, at Nacozari, will probably be ordered taken out by the Mexican federal government. This is in line with the recent request made by the government that the Southern Pacific remove its Empress station. The reason given was that the Sonora government did not care to have the railroad in constant contact with the United States cruisers anchored in the harbor of Guaymas.

The request for the removal in the north would be equal to that of the United States army has several hundred men doing guard duty along the Arizona border. The National and Guaymas stations, however, are said to be under practical censorship of the government. At Cananea, at least, the station was not allowed to be installed until the installation of a sending and receiving station had been completed at the city hall in the town. Thus far, the station has been kept accurate tab upon messages sent and received from the station at Warren.

Nacozari has developed from a mining camp with appointed officials, into a municipality which chooses its own president and council. The commission reported favorably and the legislature then acted.

The proposal was bitterly fought by the Mochitoma Copper company on account of the fact that under municipal rules the city may allow as many saloons to be licensed as it may care for. Hitherto, the number has been limited and for this reason but a small police force has been required. It is stated that a number of new saloon licenses will be issued as soon as the municipal government has been established.

The exact date for holding an election for city officers has not been made known.

The \$100,000 bond issue for the enlargement and extension of the waterworks system at Longview, Tex., carried by a good majority.

MORMONS WILL NOT START NEW COLONIES

Colonists Will Find Temporary Homes, but Expect to Go Back to Mexico When Peace Returns.

No authorized church colonies will be established in the southwest by the Mormon refugees. Instead homes are to be found for the refugees from Mexico pending the permanent establishment of peace in northern Chihuahua, where their homes are located.

Junius Romney, president of the Mormon stake until it was dissolved by the church, has returned from Salt Lake where he attended the church conference and conferred with the church officials regarding the future of the Mormon colony in Mexico. The policy pursued by the stake president received the unanimous endorsement of the church governing bodies and it was conceded that his policy in removing the people from the colonies when he did was the only wise thing to do at that time. His recommendations have also been accepted as to the return of the people to the land where they were first sent.

On the return of the judge from La Noria, Abraham Conde, father of La Noria, with the special commission to pacify his son and it is hoped that in this way a serious defection will be avoided.

REBELS AT TAMPAICO

Gen. Chico Quintero Is Shot Down in Drunken Brawl; Payroll Is Stolen.

Cullacan, Mexico, Oct. 22.—Chico Quintero, general, and one of the principal leaders in the two different sieges and looting of Cullacan, was shot dead in a drunken brawl at Zanjon, a village near Navolato Sunday. He accepted his parole from the government after much insistence on the part of his friends and retired to private life but he never had much confidence in the good intentions of the government and expected to be assassinated, as his second in command was, only a few days after he was paroled. He commanded a big following among the lawless elements in the valley and the people protectors and he was not far from being never able to run him down and at last took a temporary tranquility by pardoning him. He was believed to be one of the Orozcoists and the government officials were preoccupied about him. It was arranged for his removal and advantage was taken of a drinking fiesta to carry out the job. There is some contention in Cullacan over the killing of Ricardo Pico, one of the leading merchants, by Dr. Maximilian, a prominent physician, who was charged with the crime. They had many difficulties out of which a challenge arose. Maximilian was waiting at the residence and Pico was coming to see him. Pico was shot in the stomach and one in the face, fired by Maximilian. Pico had a pistol but was not discharged. Maximilian was one of the numerous appointees to the position of governor of Sinaloa shortly after the revolution. He was believed to be the gubernatorial chair because Juan Bandaras beat him to it and wouldn't give it up.

Payroll Is Stolen. The cashier of the big tannery at Cullacan, near Matamoros, started out with \$535, to pay off the force Saturday and at a point about five miles from the town he was ambushed by three followers of Zanjon, the leader of whom was recently executed at La Noria, and relieved of the money and ordered to return to the city.

The director of La Noria, who summarily executed Zanjon, took to the woods with his whole police force before the prospect of a criminal prosecution when he learned that a criminal judge from Matamoros was coming to the city. He was believed to be the director, Roberto Cinde, figured prominently on the government side in the recent campaign against the rebels and he was the only man in the state who had at that time as it was thought he would at once join the Orozcoists, and it was believed that he was a considerable following.

On the return of the judge from La Noria, Abraham Conde, father of La Noria, with the special commission to pacify his son and it is hoped that in this way a serious defection will be avoided.

DIAZ WILL NOT TALK ABOUT NEW REVOLT

Paris, France, Oct. 22.—Gen. Porfirio Diaz, ex-president of Mexico, has declared his intention of not returning to Mexico is unchanged. He is staying at a hotel here and shows great interest in the news concerning his nephew, Felix Diaz, and the taking of the port of Veracruz. He said, however, he was totally without private advice from Mexico and continued:

"Under the circumstances, I prefer not to express any opinion relative to my nephew's intentions and chances." Naturally, he said, he was not connected in any way with the present movement. His only object, as he had on many occasions insisted, was to see a peaceable Mexico which thus would be given a chance to develop and thrive.

Gen. Diaz is greatly disturbed in regard to several interviews purporting to be from him which have been published in Paris and he has been quoted as attacking president Madero. "We have seen statements were untrue and added he had been so misquoted that he would prefer to say nothing more."

STEWART TO RUN AGAINST ESCAJEDA

Frank A. Stewart has decided to enter the race for district clerk against Escajeda. Mr. Stewart will make the race as an independent, appealing for his support to supporters of both tickets. Mr. Stewart is a well known young man, who formerly was connected with the First National bank and later traveled for the Colorado Fuel and Iron company out of here.

THE COURTS.
